Your baby's first years are critical to their ongoing success in school, relationships and life. Castles of Imagination cares for infants as young as 4 weeks of age with love, affection and the constant attention that is so critical to their development.

Miss Julie, our infant teacher, has been working with children for 12 years. Her credentials include a Child Development Associates, and first aid/ CPR certification. Julie has also completed training in sign language, early literacy, developmentally appropriate practices and Spanish curriculum usage.

Our typical day..

- Loads of activities including reading, signing and singing to your child.
- Weekly lesson plans which include age-appropriate activities designed to meet the individual developmental needs of your infant.
- One on one interaction to promote socio-emotional, communication, sensory and physical development.
- Daily records that lists the time and nature of all your infant's activities - sleeping, eating, bowel movements and developmental milestones.
- Teachers and Directors available anytime to talk with you about your child's day.
